Information Bulletin

Issue raised: **Nissan Navara D21 Guards**

Date identified: **16/03/04**

This bulletin is to inform you of the differences in the Navara D21 guards with the part numbers **NNB-10010RH** and **NNC-10010RH**. Part number **NNB-10010RH** (1/86 - 5/92), has an aerial cutout as shown in the diagram below. Part number **NNC-10010RH** (6/92 - 3/97), does not have an aerial cutout, therefore you are required to cut the hole in the position required (if required).

Note: If the original guard has an aerial cutout then compare its positioning to the replacement guard prior to fitment to ensure the guard is suitable, see dimensions below.
