Information Bulletin

Issue raised: **Toyota Corolla AE95 Wagon Front Bar**

Date identified: **10/05/04**

This bulletin is to out line the differences between the Corolla AE95 (4WD) Wagon front bar and the regular Corolla AE90, 92, 93 & 94 -- (Sedan/Hatch/Seca). Currently we supply the parts; **TCG-04010** & **TCG-04011** which are suitable for application on AE90 - 94 early and late models respectively. The AE95 bar is a Genuine item only. **Note: This bar is not interchangeable due mainly to bar brackets.**

Above is the approximate measurements of the bracket mounting area of the early model bar **TCG-04010**.

Above is the approximate measurements of the bracket mounting area of the **Genuine AE95** bar.
